Ami

```
Emi
An angelface smiles to me
   D
                       Emi
Under a headline of tragedy
That smile used to give me warmth
Farewell - no words to say
  D Emi
Beside the cross on your grave
And those forever burning candles
Emi
Needed elsewhere
                Ami
                               Emi
To remind us of the shortness of your time
      C D
Tears laid for them
      Ami F
Tears of love tears of fear
C G
Bury my dreams dig up my sorrows
Ami F
Amı
Oh, Lord why
G
The angels fall first?
Emi
                       G
Not relieved by thoughts of Shangri-La
              G E7
Nor enlightened by the lessons of Christ
                    G
I'll never understand the meaning of the right
Emi G
Ignorance lead me into the light
Emi C
Needed elsewhere
               Ami
To remind us of the shortness of your time
      C D
Tears laid for them
 Ami
Tears of love tears of fear
Bury my dreams dig up my sorrows
Oh, Lord why
The angels fall first?
       Emi
Sing me a song
 Dmi
Of your beauty
```

Of your kingdom

Emi Dmi

Let the melodies of your harps

Ami

Caress those whom we still need

Emi Dmi

Yesterday we shook hands

Ami

My friend

Emi Dmi

Today a moonbeam lightens my path

Ami

My guardian
