Know Why the Nightingale Sings

Nightwish

What does the free fall feel like? Asks the boy with a spark in his eye Know why the nightingale sings? Is the answer to everything

Taking a step to a world unbound Spinning my fantasies all around Freed from the gravital leash I swear the heaven's in my reach

Dancing with the spirit of the air In this ocean so open and fair Making love to the gods above On my maiden voyage so bold

Landing safely to the blue lagoon
Don't know if this is the earth or the moon
Joy of living is no more a mask
The Eden I found will forever last

Migrating with the geese
My soul has finally found peace
Doesn't matter that man has no wings
As long as I hear the nightingale sing...
