Nightwish

Now you've been tucked in  
For eternal earthrise and wonder  
A sailor through aeons  
Story unheard  
Howling at the Earth  
Yours the whole graveyard of heavens  
A ship that sailed home

You're with us, face of the night  
Singing through the morn for mankind  
I want to sing with you  
You're home now, outward urge  
As with every dreaming creature  
We want to come with you

Here I came to be  
Your reach into the far  
On the stellar sea  
Cut in little stars

We all want the due night  
Beauty which is worth the hurting  
We're coming to join you  
Hope revived for a lifetime  
To rekindle the human spark  
In love with the night

Now you've been tucked in  
For eternal earthrise and wonder  
A sailor through aeons  
Story now heard  
Howling at the Earth  
Yours is the whole starmap of heavens  
Of myriad endings

Here I came to be  
Your reach into the far  
On the stellar sea  
Cut in little stars

We came here to be  
A waypoint to the far  
On the stellar sea  
Cut into little stars  
Calling with the sound  
Of a dreamlike dulcimer  
We came here to stay  
With your guiding light

"And when he shall die  
Take him and cut him out in little stars  
And he will make the face of heaven so fine  
That all the world  
Will be in love with the night  
And pay no worship to the garish sun"
