

## The Wayfarer

Nightwish

I went into the wilderness with Uncle Walt  
I discovered the wild  
Learning to suck all the experience  
Seeing the world through cradle's bars

The wild blessed me with an errant mind  
Showing the way for the ultimate lore  
I went around the world, beyond the wild  
Finding my home from an ocean shore

Wayfarer, heartlander  
What if I only had  
One more night to live

Home is where the way is  
My road goes on forever  
One more voyage to go

Wayfarer, heartlander  
What if I only had  
One more night to live

Dead to the world  
Alive for the journey

Wayfarer, heartlander  
What if I only had  
One more night to one more night to live

Wayfarer, heartlander  
What if I only had  
One more night to live

Home is where the way is  
My road goes on forever  
One more voyage to one more voyage one more voyage to go
