

# Rastaman

Nightwork

I'm rastaman  
eating on the beach, drinking beer  
and I come from far land  
I'm going to play on my Bambu instrument  
I'm sitting on the beach, drinking beer  
I'm eating kokain from ear  
and now I see  
my friend is fucking with my girlfriend  
in the sea (ups)

I am rastaman, too  
I have seen  
what's happend here  
so come on, don't worry  
and smoke green friend with me

we want to have some fun  
on the summer yellow sun  
we want to have some fun  
on the summer yellow sun

we want to have some fun  
on the summer yellow sun  
we want to have some fun  
on the summer yellow sun

I've been the abrogated man  
you see the rasta beautifull women  
and one of them will seen this pain  
tell me history again  
yes I used to love her  
and she has the duck  
what this name?  
He is the Bugyhag  
I found her in the town full of mug  
When is she now?  
If in Tokio with her big black dog

we want to have some fun  
on the summer yellow sun  
we want to have some fun  
on the summer yellow sun

ha ha ha ha

we want to have some fun  
on the summer yellow sun  
we want to have some fun  
on the summer yellow sun

we want to have some fun  
on the summer yellow sun  
we want to have some fun  
on the summer yellow sun.....
