

I accidentally broke some hearts, knew a bird or two  
They love me like they love burger food  
Rolling with my princess down the avenue  
On top of my shit just like a surfer dude  
Cowabunga, ha, I'm going under  
I'm not afraid to fall  
'Cause everytime it makes me stronger  
Plus every summer, there'll be another  
But none of them compare to you  
You shake up my world like thunder

When it comes to you, I will be careful, yes  
Whatever I do (whatever)  
I'll treat your heart like crystal glass  
I swear I'll never drop it, no - never drop it, uh  
I'll never drop it, no - never drop it  
I swear I'll never drop it  
I swear I'll never break your heart  
You know I'd never drop it  
I'll never drop it on the floor (hey)  
Oh, oh, oh, oh  
I'll never drop it on the floor (hey)  
Oh, oh, oh, oh

Ye-ye-ye, so on top, can't even touch the ground  
Like stars in space, yeah, I can't get down  
We got some pretty girls here, they wanna get with me  
And we still buying bottles even though we get 'em for free  
I'm talking science, I'm talking chemistry  
Hungry like lions, they talking so dirty (dirty)  
But baby you're not like them  
You're so clean and sparkling  
More like a 12 out of 10  
I swear I'll never drop your heart again (never, never)

When it comes to you, I will be careful, yes  
Whatever I do  
I'll treat your heart like crystal glass  
I swear I'll never drop it, no - never drop it  
I'll never drop it, no - never drop it  
I swear I'll never drop it, no - never drop it  
I'll never drop it, no - never drop it  
I'll never drop it on the floor (hey)  
Oh, oh, oh, oh  
I'll never drop it on the floor (hey)  
Oh, oh, oh, oh

Ye-ye-ye, I want your heart, I want it  
I-I, I want your heart, I want it  
I-I, I want your - hjerte  
Dit hjerte - gi' mig dit hjerte, ja  
I want your love, I want it  
I-I, I want your love, I want it  
I-I, I want your - kærlighed  
Din kærlighed - gi' mig din kærlighed  
I'll never drop it on the floor
