

Lights Down Low

Nik & Jay

She like the things I do
She like the way I flow
She can't wait no more
She wanna hear it on the radio
She like that beat on blast
She like the lights down low
She like the lights down low
Like the, like the, like the lights down low
I like the lights down low

Finally, finally
I'm gonna dive into the finest sea
Tonight she show me her corals
She make me feel immortal (yeah)
She seems so flawless
Can't be beat like real good lawyers
She reveals her deepest secrets, no Victorias
She like the lights down low
I like my wife to go slow-motion for me
Like a love ocean on me

She like the things I do
She like the way I flow
She can't wait no more
She wanna hear it on the radio
She like that beat on blast
She like the lights down low
She like the lights down low
Like the, like the, like the lights down low
I like the lights down low
I like the lights down low
I like the lights down low

So I dim it down
She got my head spinnin' round
The music is high, it's a private show
Lights down low, her eyes still glow
And she likes me, so I play it all nicely
We stay awake, no beauty rest
I win the night, she lose the dress
Li-lights down low, nighttime
I'm going out of my right mind
Then I get right behind her
I got nasty plans in the pipeline

She like the things I do
She like the way I flow
She can't wait no more
She wanna hear it on the radio
She like that beat on blast
She like the lights down low
She like the lights down low
Like the, like the, like the lights down low
She like the things I do
She like the way I flow
She can't wait no more
She wanna hear it on the radio

She like that beat on blast
She like the lights down low
She like the lights down low
Like the, like the, like the lights down low
I like the lights down low
I like the lights down low
I like the lights down low

Lights down low, straight lovin'
She keep my heart pumping
No limits, no endings
It's all new beginnings
Lights down low, straight lovin'
She keep my heart pumping
No limits, no endings
It's all new beginnings

She like the things I do
She like the way I flow
She can't wait no more
She wanna hear it on the radio
She like that beat on blast
She like the lights down low
She like the lights down low
Like the, like the, like the lights down low
