

# United

Nik & Jay

We, we don't, don't, don't lie  
We, we go, go sky high  
Deep, deep into the night

I always thought that my life was like a movie scene  
In this fantasy world is where I see my dreams  
I have always felt that I like the Northern lights belong to the sky  
No regrets, no more bullshit and no rewind

Today we feel inspired  
Let me set your heart on fire  
Tonight we start a riot  
It only takes two people to party  
But everybody is invited  
Tonight we start a riot

Why don't you lift my body, lift my body  
Move my body, love my body  
Lift my body, take me off the ground  
Let's get united  
Lift your body, lift your body  
Move your body, love somebody  
Lift your body, take it higher now  
Let's get united

It's going down again, good gracious  
It's all good, we've been doing this for ages  
Door's open, my crib's so spacious  
I'm gonna lift your body up like it's weightless  
So go call all your friends  
It's in the air tonight like Phil Collins sings  
Such a really good vibe  
So put your 2's up if you're feeling alright  
And I know you like it  
Make you walk the plank like a pirate  
It's so out loud, you can't fight it  
We so fly, no wings, no pilot

Today we feel inspired  
Let me set your heart on fire  
Tonight we start a riot  
It only takes two people to party  
But everybody is invited  
Tonight we start a riot

Why don't you lift my body, lift my body  
Move my body, love my body  
Lift my body, take me off the ground  
Let's get united  
Lift your body, lift your body  
Move your body, love somebody  
Lift your body, take it higher now  
Let's get united

Thousand hands up in the air  
Love is in me, I must hear  
Hear we ain't going nowhere (nowhere)

Thousand people up in here  
Feel so freaking good, I swear  
We ain't going nowhere

Why don't you lift my body, lift my body  
Move my body, love my body  
Lift my body, take me off the ground  
Let's get united  
Lift your body, lift your body  
Move your body, love somebody  
Lift your body, take it higher now  
Let's get united

We, we don't, don't, don't lie  
We, we go, go sky high  
Deep, deep into the night  
Ohh  
We, we don't, don't, don't lie  
We, we go, go sky high  
Deep, deep into the night  
Let's get united
