

Don't Lie

Nik Kershaw

Make me laugh and make me sing
Make me do most anything
But it may seem a better fake
Oh, if you can exaggerate
If you think we don't know better
Just write yourself a Dear-John letter
Face to face and eye to eye
Oh, we all know that pigs don't fly

Baby, don't lie, baby, don't lie no more
Baby, don't lie no more (lie no more)
Baby, don't lie, baby, don't lie no more
Baby, don't lie no more

Hide behind your shallow smile
With fabrication by the mile
Imagination gone too far
You can't tell what the real things are
Don't give me that sincere look
'Cause I can read you like a book
Page by page and line by line
Let's hear that story one more time

Baby, don't lie, baby, don't lie no more
Baby, don't lie no more (lie no more)
Baby, don't lie, baby, don't lie no more
Baby, don't lie no more

Tell lies for light relief
Designed to bring express belief
But one day without a doubt
The Boogey-man will find you out

Baby, don't lie, baby, don't lie no more
Baby, don't lie no more (lie no more)
Baby, don't lie, baby, don't lie no more
Baby, don't lie no more
