

# I Can't Wait

Nik Kershaw

There's a rush in the street I am standing still  
I've got time to kill  
Here's a girl with a smile upon her face  
Oh happy days  
And there's you  
Putting the sparkle in my eye  
Making me shine so bright  
And

I can't wait  
I can't wait to meet you  
I can't wait

There's a clock on the wall with time to spare  
It's just hanging there  
There's a bird singing songs from Let it Be  
Singing just for me

And there's you  
Making me laugh, helping me to fly  
Giving me all that I need  
And

I can't wait  
I can't wait to meet you  
I can't wait  
I can't wait to meet you

I wake into a nightmare  
All alone  
Now I can't find you anywhere  
No I can't find you anyway

And try resting my head, closing my eye  
Hoping I dream of you sweet dreams of you  
And

I can't wait  
I can't wait to meet you  
I can't wait  
I can't wait to meet you  
I can't wait
