

Little Star

Nik Kershaw

Safe above soft beneath duvet
Light becomes dark and a new day calls
Lullaby float you away
My little guy go you to sleep and
Dreamland

Wide awake try to make time wait
Five minutes more but it's so late now
Never mind bumps in the night
I promise I'm fearless and faithful
It's alright

Sleep becomes dream becomes nightmare
Angels and demons both have their say
Little star, don't be afraid
Though, when you are
Always remember
I will be there when you wake

You wonder what hides in those shadows
Your mother is wise and your dad knows best
Little man, I will be true
I promise that
I won't let these monsters come for you

Sleep becomes dream becomes nightmare
Angels and demons both have their say
Little star, don't be afraid
Though, when you are
Always remember
I will be there when you wake

Safe above soft beneath duvet
Light becomes dark and a new day calls
