

These Little Things

Nik Kershaw

Today was a good day
Hell, we made it out alive
Such a good day
Nothing much to testify
Ben and Jerry
Just vanilla in a bowl
Ordinary

Today was a fine day
What a feeling in the air
Such a fine day
David Attenborough there
On my telly
Chicken korma and anaan
In my belly
There's a party going on
Ten a penny
But you'll miss 'em when they're gone, gone, gone

And here we are and oh we are alive now
Each day brings these little things for us

Today was a great day
Bet you wish that you were me
Such a great day
Had a lovely cup of tea
With the missus
And the kids were home from school
Hugs and kisses

Today was a kind day
On the whole I can't complain
It was OK
There was sunshine, there was rain
Clacton Pier
Bitter winds and candy floss
Hope and fear
Lucky people, lucky us
Magnolia
Was the colour of the day

And
Here we are and oh we are alive now
Each day brings these little things for us

It is what we make it
It's what it is, ain't that the truth
Though it maybe
Not the most exotic fruit
Celebrate it
Every trivial pursuit

And
Here we are and oh we are alive now
Each day brings these little things for us
