

Make It Sting

Niki & Gabi

If I told you, if I told you
If I told you something
You better, you better
Better not start running
I want you yeah, I want you
I want you more than it's cool to say
Cause no one can save me now

Do what you do to me
Rip it off, make it sting
I've got the guts
To get messed up on your love

It's okay if it hurts
That's how I know you really matter
Do what, you do to me
Rip it off, make it sting

Boy, you're dangerous, yeah you're dangerous
I'ma call you tiger
Can you feel it, you feel it
No, this shit ain't minor
The thing is, the thing is
I would kinda die to love you anyway
Cause no one can save me now

Do what you do to me
Rip it off, make it sting
I've got the guts
To get messed up on your love

It's okay if it hurts
That's how I know you really matter
Do what, you do to me
Rip it off, make it sting

You could wreck me, wouldn't that be amazing?
I'd let you wreck me, wouldn't that be amazing?

Do what you do to me
Rip it off, make it sting
I've got the guts
To get messed up on your love

It's okay if it hurts
That's how I know you really matter
Do what you do to me
Rip it off, make it sting

Make it sting
