

I Like U

NIKI

I guess this is a bitter end I didn't see coming
And I'm havin' a little bit of trouble accepting, too
I don't know what to say to you
There's nothing I can do to reset your point of view
We both said this was just physical
Well, one of us lied, can't set feelings aside, truth be told, yeah
You asked to see me once again at half past ten
I got nervous, so I got faded, made things complicated

I'm sorry for the stupid shit I said
You ordered fun, I served you threads
It's probably good you left 'cause I finally admit

I like you [x3]
Sorry, I never meant to
But who we kidding, it wasn't like I had a say
One look at you and I won't have it any other way
I want you [x3]
I want you to want me too
I know that I signed up for this casually
But I fell for your tricks, now I'm the casualty

Can we just reset, restart and then replay
Take me back to when all
You wanted was to love on me every day, yeah
I like you [x3]
Words I won't ever hear from you
Wishin' I could turn back the hands of time
To when I feel your hands on me and your lips on mine

I know that that was too much the last time you saw me
And I don't blame you for getting over everything so easy
But I just can't seem to figure you out you goddamn mystery
Good God, how you kiss me
Didn't think it'd be distress galore
Thought I just wanted you there
With your hands in my hair
But I craved more
And you just wanted rock 'n roll, no heart and soul
And I knew that from the beginning
So why don't I feel like I'm winning?

Ladies and gentlemen, I'm the joke
The punchline that got too old
It's killing me to see you gone 'cause I never told you

I like you [x3]
Sorry, I never meant to
But who we kidding, it wasn't like I had a say
One look at you and I won't have it any other way
I want you [x3]
I want you to want me too
I know that I signed up for this casually
But I fell for your tricks, now I'm the casualty

Can we just reset, restart and then replay
Take me back to when all

You wanted was to love on me every day, yeah
I like you [x3]
Words I won't ever hear from you
Wishin' I could turn back the hands of time
To when I feel your hands on me and your lips on mine

Something 'bout you makes me difficult
But that makes us even 'cause you top of the charts
Egotistical, it's so typical
For me to fall for your kind
But, oh God, I wish you were mine

I like you [x3]
Sorry, I never meant to
But who're we kidding, it wasn't like I had a say
One look at you and I won't have it any other way
I want you [x3]
I want you to want me too
Would it be a stretch if I asked you to try again?
I'll be patient, I swear I'll even count to ten
One, two, three, four, five
Fuck it

Can we just reset, restart and then replay (replay)
Take me back to when all
You wanted was to love on me every day, yeah
I like you [x3]
Words I won't ever hear from you (won't ever hear from you)
Wishin' I could turn back the hands of time
To when "I like you" was only just a secret
Crime

Yeah, uh
