NIKI

Wonder what I'll do  
When the cops come through  
And the whiskey's run out  
'Cause I've been looking at you  
Since half past two  
Wanna take this downtown  
This liquid courage  
Got me way too honest  
Put your phone on vibrate  
Let's catch a vibe babe  
While the sun's down

Hush now, I know  
We're a little too fucked up to stay still love  
Be as quiet as you can  
'Cause if anyone sees they'll just blow shit up  
I don't gotta know if you're taken  
I'll just let you know, bedroom's vacant  
No one's gotta know, just us and the moon  
Till the sun starts waking

Up's the only direction I see  
As long as we keep this

Low, low, low, low, low, low, low, lowkey  
(Ah-ah-ah-ah-ah, ah-ah-ah-ah-ah)  
You ain't even gotta lo-, lo-, lo-, lo-, lo-, lo-, lo-, love me  
(Ah-ah-ah-ah-ah, ah-ah-ah-ah-ah)  
Us in a king sized, keep it a secret  
Say I'm your queen, I don't wanna leave this  
Low, low, low, low, low, low, low, lowkey

Wizard with words, tellin' me  
My energy's so bewitching  
So I'll go first  
There's an open bar  
Let's close this distance  
Oh-oh-oh, my  
Don't make me have to spell it all night

I don't really give a fuck  
'Bout all the "he said, she said" bullshit  
So pick your poison love  
Let's go somewhere a little more exclusive  
Take a shot, take a chance, take my hand boy  
Tension so intense like an asteroid  
Be discreet, gotta dodge all the tabloids

Let's not think too much, there ain't no problems  
As long as we keep this

Low, low, low, low, low, low, low, lowkey  
(Ah-ah-ah-ah-ah, ah-ah-ah-ah-ah)  
You ain't even gotta lo-, lo-, lo-, lo-, lo-, lo-, lo-, love me  
(Ah-ah-ah-ah-ah, ah-ah-ah-ah-ah)  
Us in a king sized, keep it a secret  
Say I'm your queen, I don't wanna leave this

Low, low, low, low, low, low, low, lowkey
