

Head First

Nikka Costa

Now we finally alone
Make my way through the darkness
Don't know what I'll find here
But I know you'll make me feel it

Persuasions taking over
Runnin outta places to run & hide
So come & take my forever
I'll do whatever

Theres beauty in the way we hesitate
We get closer with each beat we wait
Till we cant hold on a minute more
Lets dive on in & explore
Head first

Closin in on it
Hold my breath & wait for it
The spaces between
That's what I want to know
Will you show me

You make me feel so beautiful
You make me wanna unfold for ya
Baby take off my clothes
Oh but do it slow

Theres beauty in the way we hesitate
We get closer with each beat we wait
Till we cant hold on a minute more
Lets dive on in & explore
Head first
