## I Believe In Love

I believe in love Ibelieve it every time I see you Walking by my side It's something I can't hide I believe in love I believe it every time I hear Your laughter flow with mine Oh I can see it shine Like a super nova star Like a glow worm in a jar The ligth is just the same And love is not a game So believe in me my friend And this joy will never end In a hundred years or two I'll still be loving you

I believe in ghosts I believe in frankenstein the most And even halloween The moon is cheesy green

Like a super nova star Like a glow worm in a jar The light is just the same And love is not a game So believe me my friend And this joy will never end In a hundred years or two I'll still be loving you I believe in love I believe it every time I see you I believe it every time I see you I believe it every time I see you
