

On & On

Nikka Costa

Make your mama proud like a real man should
Scream so loud I wake the neighborhood
Make me write a song 'bout the way you do it
Baby don't fuck around put your back into it yeah

Make your mama sing like a gospel choir
Now I'm hearing things baby I'm on fire
Watch your mama work it till we both retire
Don't you know I'm worth it gonna sock it to ya right

We don't need to talk it over
Let's just get it on & on & on & on!

I'm getting sticky just thinking 'bout ya
Bend your mama over let's work it out
There ain't nothing wrong with the way we do it
Make your mama smile with your groove
