I wanna know what makes your soul fly
And what you're thinkin' on the late nights
Want you to take me for a long drive, sometime
I wanna get to know your dark side
I wanna kiss it 'til it's alright
I wanna show you what it feels like
Wanna show you what it feels like, when we

Soul fly
Soul fly
Soul fly
Mmmmm
Mmmmm
Mmmmm
That's all I wanna do
Mmmmm
Mmmmm
Mmmmm
To feel like
To feel light

We could talk in my room with no distractions
We can land on the moon and see what happens
But there was no way to be in your gravity without going under
Let me try taking some of that weight off of your shoulders

If you give me the truth, I'll give you magic
And I'm not scared to lose it 'cause we had it, one time
So let me get inside your mind
So deep, so deep, so deep
Sometime

It feels like
Take me for a long drive
Sometime
