

# Bubbles

Nikki Yanofsky

You better read the label  
There's never been a finer wine  
A subtle flavour shining through  
I'm liquor wrapped in sable  
Honey dripping from the vine  
A brew that's breaking all the rules

I'm a cocktail for all seasons  
A double shot of something hot  
With absinthe on the side  
Can you handle these ingredients?  
'Cause I'm a homespun tropical sunset  
Searching for a moonshine high

Are you ready? Hot and heavy  
Let's get the party on track  
Get to know me, rock 'n' roll me  
And I'll be your bubbles when the champagne's flat  
Gotta read me, Wikipede me  
Learn how to fill up my glass  
Take it slowly, sugar-coat me  
'Cause I'm bubbles baby, got it all on tap

So grab yourself a taster  
Hit a little hundred proof  
You know I'm all that juice you want  
And when you need a chaser  
Something with an attitude  
And baby, I'll be here to turn you on

Won't you try my pleasure potion?  
Just say you need your genie free  
And I'll be out to play  
Set my spirit guide in motion  
And let me voodoo you in the moonlight  
Dancing till the break of day

Are you ready? Hot and heavy  
Let's get the party on track  
Get to know me, rock 'n' roll me  
And I'll be your bubbles when the champagne's flat  
Gotta read me, Wikipede me  
Learn how to fill up my glass  
Take it slowly, sugar-coat me  
'Cause I'm bubbles baby, I'm a touch of class

Toast me, taste my loving cup  
Show me, you can make my bottle pop  
Sip me till the morning light  
'Cause baby, I'll testify  
You're in trouble 'cause my names bubbles

Are you ready? Hot and heavy  
Let's get the party on track  
Get to know me, rock 'n' roll me  
And I'll be your bubbles when the champagne's flat  
Gotta read me, Wikipede me

Learn how to fill up my glass  
Take it slowly, sugar-coat me  
'Cause I'm bubbles baby, I'm a touch of class

They call me bubbles  
My name is bubbles  
Bubbles
