

## High Note

Nikki Yanofsky

Ask me if you could stay the night  
Wish we were at your apartment instead of mine  
'Cause I could leave and it'd be alright  
Alright  
All this kissing's just killing time  
I'm not unhappy, I'm just unsatisfied  
Something's missing, I don't know why  
Couldn't tell you why

But all the silence in between us feels uncomfortable  
In a way it never did before  
Holding your hand feels so platonic and predictable  
Turned into something that I can't ignore

High note  
Let's end this on a high note  
Don't wanna leave you spiteful  
If we're gonna say goodbye  
Goodbye, goodbye  
High note  
Let's end this on a high note  
Both know that it's the right call  
If we're gonna say goodbye

Said I think that we need to talk  
I can't pretend to be something that we're not  
Tryna let you down easily  
But this ain't easy for me, ooh  
Ask me if I could tell you when  
Was there a moment I knew this had to end?  
Don't wanna hurt you with honesty  
No, no

'Cause all the silence in between us felt uncomfortable  
In a way it never did before  
Holding your hand felt so platonic and predictable  
Turned into something that I can't ignore

High note  
Let's end this on a high note  
Don't wanna leave you spiteful  
If we're gonna say goodbye  
Goodbye, goodbye  
High note  
Let's end this on a high note  
Both know that it's the right call  
If we're gonna say goodbye

Spiteful  
I don't wanna leave you spiteful  
Let's end this on a high note  
If we're gonna say goodbye  
Right call  
We both know this is the right call  
Let's end this on a high note  
If we're gonna say goodbye
