

# Sunshine

Nikki Yanofsky

Top-down in a Chevrolet  
But you throwing shade  
Send a little sunshine my way  
Blue sky on a summer day  
But you won't stop raining  
Send a little sunshine my way

Tryna let my hair come down,  
But you won't stop wigging out  
Send a little sunshine my way  
Don't know how it's possible, but you  
You're colder than my popsicle  
Send a little sunshine my way

Cut the crying, oh just keep it inside  
'Cause you know you're kinda killing my vibe

Sunshine  
All I'm asking for is  
Some time with you babe  
Feels dark as midnight  
Come see the light of day  
Send a little sunshine my way

Cherry coke and a backwards hat  
But you're falling flat  
Send a little sunshine my way  
You're like a dark cloud hangin' over me  
I'll melt away your misery  
Send a little sunshine my way

Cut the crying, oh just keep it inside  
'Cause you know you're kinda killing my vibe

Sunshine  
All I'm asking for is  
Some time with you babe  
Feels dark as midnight  
Come see the light of day  
Send a little sunshine my way

The sun is shining, I ain't asking for much  
Just wanna spend some time with you, enough is enough  
Dark as night when it's still bright up above  
So won't you see the light, the sun is shining for us

We're top down in a Chevrolet  
But you're throwing shade  
Send a little, send a little, send a little

Sunshine  
All I'm asking for is  
Some time with you babe  
Feels dark as midnight  
Come see the light of day  
Send a little sunshine my way

Sunshine  
All I'm asking for is  
Some time with you babe  
Feels dark as midnight  
Come see the light of day  
Send a little sunshine my way

Why don't you send a little sunshine my way
