It was '06 taking dustcaps, now we drive in-
It was '06 taking dustcaps, now we drive in them big vans
The sprinters-

It was '06 taking dustcaps, now we drive in them big vans
The sprinters, not the half cabs
I made friends with her old man
Broke a leg on the pole jam
No hands on a VanMoof from Alderney down to Bohan
Heat press and it's worn off
In a argument, I got told off and I stormed off
Caught my belt loop on a doorknob
She my right lung
Did karaoke with the lights on but the mic off
I might just go get lost in a nice song
I'm on a mongoose, numbers looking obtuse
But that's old news, whatever you do is what I not do
I hear one click and I'm on go
It gets extreme at a Tom show
I might walk out with a chest rig and a GoPro
