

X Factor

Niko B

Unlimited things
Got blood diamond got blood on her ring
Just looped in a swing
I'm on X-Factor and I don't even sing

My sandwich [?]
And don't give me a ring
I like showing love not down for a fling
Got a mask and a stick
I put on skates and I hop in a rink
I got a Highland Spring
I want any car in like baby pink
Like how does he think?
Do you know how long is a piece of string
Got thrown in a bin
I'll only do what it says on the tin

I'm with M right now
Talk of the town
I won't throw in the towel
I'm just better than you with my trousers down
I need ten right now
Feel just like Ben 10 when I look at the dial
But the watch ain't round
You won't even know what I'm on about
But I won't dumb it down
Headphones tangled
Whips and cuts on my trousers
Under my ankle
These jeans too long on my sandals
Cartier bangle
And a pendant see how it dangles
I just opened a door when I left the gym
And I nearly pulled off the handle

Extreme like a Go-Pro
Try me, that's a no-go
Won't make sense like Chris and JoJo
It's like milk with polos
Like playing Skate after session
I tried turn left with a left stick
I approach a ledge for a backflip
And a guys on the floor with his head split
