

## BACK NINE

Niko Moon

No the first nine didn't go the way that I planned  
I went from finding love to getting caught in the sand  
I tried to make it work but it was outta my hands  
Yeah, you played me like a pro

For a while there you really had me off of my game  
But when I hit the turn I started making a change  
I need a green jacket for the way that I'm playin'  
Yeah, if you could see me now  
Check me out

Damn it feels good  
Gettin' through the woods  
Bet you never thought I'd make it out  
Everything I need  
Is sittin' on the green  
Birdie up ahead and some beers iced down  
Ain't gonna lie, yeah it's been hard  
Gettin' over you under par  
I'm doin' alright  
Ever since I'm  
On the back nine of a broken heart

I'm all teed up for moving on, somebody throw me a drink  
I bet ya hate it that I'm out here finding my swing  
But I'ma lose your memory while I'm out on the links  
Saying hello to goodbye

Damn it feels good  
Gettin' through the woods  
Bet you never thought I'd make it out  
Everything I need  
Is sittin' on the green  
Birdie up ahead and some beers iced down  
Ain't gonna lie, yeah it's been hard  
Gettin' over you under par  
I'm doin' alright  
Ever since I'm  
On the back nine of a broken heart  
On the back nine of a broken heart

Nothing but blue skies  
And nine holes to go  
Livin' the good life  
Yeah, I'm on a roll  
Nothing but blue skies  
And nine holes to go  
Livin' the good life  
Yeah, I'm ready to roll

Damn it feels good  
Gettin' through the woods  
Bet you never thought I'd make it out  
Everything I need  
Is sittin' on the green  
Birdie up ahead and some beers iced down  
Ain't gonna lie, yeah it's been hard

Gettin' over you under par  
I'm doin' alright  
Ever since I'm  
On the back nine of a broken heart
