

# BOAT SONG

Niko Moon

(I need a boat song)

I don't want hear no barsongs out on this boat  
No back road anthems when I'm out here trying to float  
Ain't singing bout no heart break honkytonk love  
No songs about whiskey when we sippin' on this rum  
Sun keeps on getting hotter  
Yeah, so play me something for the water

I need a boat song  
Kind that I can crank up loud and roll on  
One that makes me wanna take a ride on these waves  
Gets me drifting away  
Something I can play all summer long  
I need a boat song  
I need a boat song

That one that gets ya off the land  
Leaves your worries in the sand  
Yeah, that one that puts the breeze in your hair  
And that cold one in your hand with some rum  
Sun keeps on getting hotter  
Yeah, so play me something for the water

I need a boat song  
Kind that I can crank up loud and roll on  
One that makes me wanna take a ride on these waves  
Gets me drifting away  
Something I can play all summer long  
I need a boat song  
I need a boat song

Let's get this pontoon flying like we riding the tide  
Let's sail away on this wake til there's nothing in sight  
I need that coastline high that kind that hits just right  
The one ya play on and on

I need a boat song  
Kind that I can crank up loud and roll on  
One that gets me feeling right at home on these waves  
Gets me drifting away  
Something I can play all summer long  
I need a boat song  
Yeah, I need a boat song
