

SUMMER DON'T GO

Niko Moon

We were on fire for the first 3 months
Summer on your skin yeah we were falling in love
Riding them waves till the moon rolled in
Telling myself I never want it to end
September's coming fast
Pour up another glass
Cause I'm trying to make it last

Summer don't go without a barefoot night
Summer don't go without tequila and lime
Summer don't go without some bait on a string
Summer don't go without a summer fling
All this salt in the air
All this ain't got a care
Has got me thinking summer don't go
Summer don't go nowhere

Ever since you started drifting away
Five o'clock somewhere nah it just ain't the same
Tan lines fading
Waves keep breaking
Just like my heart so won't you stay

Summer don't go without a barefoot night
Summer don't go without tequila and lime
Summer don't go without some bait on a string
Summer don't go without a summer fling
All this salt in the air
All this ain't got a care
Has got me thinking summer don't go
Summer don't go nowhere
Summer don't go nowhere

Summer don't go
Summer don't leave
Summer just stay right here with me
Summer don't go
Summer don't leave
Summer just stay right here with me
Summer don't go
Summer don't leave
Summer just stay right here with me, yeah
Cause I'm trying to make it last

Summer don't go without a barefoot night
Summer don't go without tequila and lime
Summer don't go without some bait on a string
Or that get you high song of the summer you sing
All this salt in the air
All this ain't got a care
Has got me thinking summer don't go
Summer don't go nowhere
Summer don't go nowhere

Summer don't go
Summer don't leave
Summer just stay right here with me

Summer don't go
Summer don't leave
No summer don't go nowhere
