

WEIGHTLESS

Niko Moon

I ain't got a million dollar ticket
First class ride to see the stars
And I ain't got a space suit made for walking
On them red dirt planes of Mars

But you lift me up like helium
Get my feet up off the ground
You get me high like rocket fire
I ain't ever coming down
Oh, the atmosphere
Is different here
When you are near
You make me feel weightless

I ain't never seen the rings of Saturn
Or made it to the dark side of the Moon
But when I'm with you, it's supernova
What a cosmic thing you do

But you lift me up like helium
Get my feet up off the ground
You get me high like rocket fire
And I ain't ever coming down
Oh, the atmosphere
Is different here
When you are near
You make me feel weightless

I don't need no gravity
You make me feel weightless
When you're holding on to me

'Cause you lift me up like helium
Get my feet up off the ground
You get me high like rocket fire
And I ain't ever coming down
Oh, the atmosphere
Is different here
When you are near
You make me feel weightless
Weightless
