

WITHOUT SAYIN A WORD

Niko Moon

If you gon do it, do it right
Fifteen early is right on time
You'll catch more flies with honey
Don't forget, save your money

When you're knocked down get back up
Tell the truth when it's tough
If it ain't broke, boy don't fix it
Life is short make sure you live it

It's what you do not what you say
Learn to bend and you'll never break
Keep your word and finish what you start
Fall in love with a woman's heart
Ya ain't gotta have a lot
Take pride in what you got
My old man taught me everything I learned
Without sayin a word

Don't forget where you come from
Be yourself, do what you love
Son, take care of your mother
'Cause you ain't ever gon get another

It's what you do not what you say
Learn to bend and you'll never break
Keep your word and finish what you start
Fall in love with a woman's heart
Ya ain't gotta have a lot
Take pride in what you got
My old man taught me everything I learned
Without sayin a word

Best believe that I'm still reaching for that silent bar he set
And I won't give up trying to live up to the things he never said

It's what you do not what you say
Learn to bend and you'll never break
Keep your word and finish what you start
Son, be true to who you are
Ya ain't gotta have a lot
Just take pride in what you got
Yeah, my old man taught me everything I learned
And I thank God for all the lessons that I heard
Without sayin' a word

Mmm, without sayin a word
