

belong with you

Nilüfer Yanya

Please don't cry
I run out of patience, I
Had enough your reasons why

Sick of this
I don't even like you, bitch
That's enough, don't use me like
Had enough let's over ride

I belong with you, I belong with you
I belong with you, I belong with you
I belong with you, I belong with you
I belong with you, I belong with

Don't ask me why
I got caught up
But not this time
Way too much, can't fool me twice

Rid of it
I'm not into you one bit
So fed up and lonely like
So sick of losing sight

I belong with you, I belong with you
I belong with you, I belong with you
I belong with you, I belong with you
I belong with you, I belong with
(Can't seem to break free)
I belong with you, I belong with you
(You cannot save me)
I belong with you, I belong with you
(I said there won't be a next time)
I belong with you, I belong with you
(And now I can't see the stop sign)
I belong with you, I belong with

Can't seem to break free
(I belong with you, I belong with you)
You cannot save me
(I belong with you, I belong with you)
I said there won't be a next time
(I belong with you, I belong with you)
And now I can't see the stop sign
(I belong with you, I belong with)
Can't seem to break free
(I belong with you, I belong with you)
You cannot save me
(I belong with you, I belong with you)
I said there won't be a next time
(I belong with you, I belong with you)
But now I can't see the stop sign
(I belong with you, I belong with)

(I belong with you)

Can't seem to break free

You cannot save me
I said there won't be a next time
But now I can't see the stop sign
Can't seem to break free
You cannot save me
I said there won't be a next time
And now I can't see the stop sign
Can't seem to break free
But you cannot save me
I said there won't be a next time
And now I can't see the stop sign
