

## Keep On Calling

Nilüfer Yanya

Throw it all away for you  
Just like you asked me to  
You can't always be my waste of time  
And when things don't go to plan  
If you deserve another chance  
I can count on you to take your time

And boy, I'm getting tired of your games  
You just don't stop speaking  
But I'm done with feeling for you  
Boy, I'm getting bored of your ways  
Oh, you can keep on calling  
I am done with falling

So don't worry about the tears  
Found a way to disappear  
You just watch that coming tide  
And we won't even have to shout  
'Cause not even words can find a way out  
You just relax and I'll kill the time

Boy, I'm getting tired of your games  
You just don't stop speaking  
But I'm done with feeling for you  
Boy, I'm getting tired of your games  
Oh, you can keep on calling  
I am done with falling for you  
Boy, I'm getting tired of your games  
You just don't stop speaking  
But I'm done with dealing with this  
Boy, I'm getting tired of your ways  
Oh, you can keep on calling  
I am done with falling  
I am done with falling  
I am done with falling

For you, boy  
For you, boy  
For you  
For you
