

Keep On Dancing

Nilüfer Yanya

What you looking for?
Shut up and raise your glass if you're not sure
Still I can smile, it's fucking miserable
So deep in the crime of being beautiful
Stereotypical
Keep your advice, don't give it any thought
If I wanna fight, you know who's keeping score
Swim deep in the hive I came here to ignore

Kept going wrong saying why, why, why?
Swept up and gone saying why, what are you hiding for?
I keep on going dancing for

What you looking for?
Just like a child
I play for your applause
Until you smile I'm fucking miserable
Be gone for a while just to be difficult
Cynical, yeah
Got nothing to say
Don't give it any thought
It's not the same
Got no way to be sure
Lost in the line
You came here to be caught

Kept going wrong, think I might die high
Swept up and gone singing why, what are you waiting for?
I keep on going dancing for

Cut me loose, I'm cursed
That's the truth you heard
Does it come all at once?
Does it sink like a stone?
I'm falling
If I have to move
And if I had and if I had
I'm a loser first
Come on, do your worst
Talk it out
Let it in
Got it under my skin
I'm crawling
If I have to move
And If I had
And if I had
