

Paralysed

Nilüfer Yanya

Never do I dare think about this
Almost too high to make sense out of it
Never do I, need not we talk about it
Never too high

Strange dreams and weather
They have taught me a lesson
I hear strained screams from Heaven singin', "Save me"

(When I realize)
(That I'm paralyzed)
This can't be okay
Shadow's lyin' here and its blocking out the light
(I am paralyzed on a different high)
And I really can't stay
For it is not safe here
Please take me or they might

Clever to try and only dream about it
Clever to die, come back and haunt me like this
Clever to lie, you were clever to try

Strange dreams and weather
They have taught me a lesson
I see stained scenes of Heaven sayin', "Save me"

(When I realize)
(That I'm paralyzed)
This can't be okay
Shadow's lyin' here and its blocking out the light
(I am paralyzed)
(On a different high)
And I really can't stay
For it is not safe here
Please take me or they might

In another world, I could be that girl
In another world
And time will bend 'til we meet again
'Til we meet again
Just like that, the days went
Each day, a statement
Of your love, of my love
I get up, you let go
One black hole, too shallow
For your love, for my love

But my love is breaking
But your love is broken
But my love is wasted
But my love is breaking
But my love is broken
But my love is hated

(When I realize)
(That I'm paralyzed)
This can't be okay

Shadow's lyin' here and its blocking out the light
(I am paralyzed)
(On a different high)
And I really can't stay
For it is not safe here
Please take me or they might
(When I realize)
(That I'm paralyzed)
This can't be okay
I have no place here in the absence of the light
(I am paralyzed)
(On a different high)
And I really can't stay
For it is not safe here
Please take me or they might
