

Same Damn Luck

Nilüfer Yanya

News, all bad news lately
Every single time that you called in sick
Or stayed in, they all knew, they all knew
I told you, I told

I find it overbearing, I think it's frustrating
Had enough of stayin' in touch
I find it overwhelming, I think it's perplexing
I blame us, it's the same rush

It's the same damn luck, you're stayin' in touch
I pray every single time that you blow that kiss
I hope you miss, but it's the same damn luck
I pray every single time, end up staying in touch, oh

Don't miss you, miss you
Don't assume, assume
Don't miss you, miss you
Don't assume, assume

Lose, bound to lose, baby
Dead giveaway sign is the covert tricks that stayed in
And they sold you, they sold you
They all knew, they all choose

I find it overbearing, I think it's frustrating
Just my luck, it's in my blood
I find it overwhelming, I think it's perplexing
In no rush to keep in touch

It's the same damn luck, you're stayin' in touch
I pray every single time that you blow that kiss
I hope you miss, but it's the same damn luck
I pray every single time, end up staying in touch, oh
It's the same damn luck, you're stayin' in touch
I pray every single time that you blow that kiss
I hope you miss, but it's the same damn luck
I pray every single time, end up staying in touch, oh

Don't miss you, miss you
Don't assume, assume
Don't miss you, miss you
Don't assume, assume
Don't miss you, miss you
Don't assume, assume
Don't miss you, miss you
Don't assume, assume
