

shameless

Nilüfer Yanya

Spit me out here
In the sunlight
You can face me
If it's not right
Watch me burn
Night and day

You can hate me
If you feel like
If it feels good
Must be alright
You can turn
Turn and say

I've wasted my life
So there's no need for the rush
We got all the time here
So why hurry up?
In these four walls we're stateless
Still going out with the faithless

If that is a sign
If this is enough
Then why do I lie here
Left leaving your touch?
Under it all I'm shameless
Until you fall it's painless

And when you call it's shameless
In these four walls I'm faithless
Like when you caught me, graceless
Until you fall it's painless

Cut me out here
Really don't mind
Think that you should
If it's not right
Watch me burn
Night and day

You can hurt me
If you feel like
If it feels good
Then it's alright
You can turn
Turn to say

I've wasted my life
So there's no need for the rush
We got all the time here
So why hurry up?
In these four walls we're stateless
Still going out with the faithless

If that is a sign
If this is enough
Then why do I lie here

Left leaving your touch?
Under it all I'm shameless
Until you fall it's painless

And when you call it's shameless
In these four walls I'm faithless
Like when you caught me, graceless
Until you fall it's painless

I've wasted my life
So there's no need for the rush
We got all the time here
So why hurry up?
In these four walls we're stateless
Still going out with the faithless

If that is a sign
If this is enough
Then why do I lie here
Left leaving your touch?
Under it all I'm shameless
Until you fall it's painless

Caught me out here (And when you call it's shameless)
In the sunlight (In these four walls I'm faithless)
You can hurt me (Like when you caught me, graceless)
If you feel like (Until you fall it's painless)
Caught me out here (And when you call it's shameless)
In the sunlight (In these four walls I'm faithless)
You can hurt me (Like when you caught me, graceless)
If you feel like (Until you fall it's painless)
