

Thanks 4 Nothing

Nilüfer Yanya

Too late, too cold
I just can't believe he's here
Outside, mind blown
Guess I got over the idea
Had me on hold
So I let you disappear
And now you pass
This all seems way too weird

The conversation dies
It's been keeping us alive
I've been keeping this way too clean
Wasn't telling you what I mean

This is the end
I don't think we can be friends
Just being honest
'Cause I don't want to make things better
Thanks for nothing, lasts forever
And even when we were together
Well, let's be honest

Too soon, too fast
Like a picture from your past
Came here to remind us
That this new thing, it won't last
Will you and I waste this?
I won't even try in case it don't work
I hate you and I hate this
So don't even try, in case it don't work

The conversation dies
It's been keeping us alive
I've been keeping this way too clean
Wasn't telling you what I mean

This is the end
I don't think we can be friends
Just being honest
'Cause I don't want to make things better
Thanks for nothing, lasts forever
And even when we were together
Well, let's be honest

This is the end
I don't think we can be friends
I'm just being honest
'Cause I don't want to make things better
Thanks for nothing, lasts forever
And even when we were together
Well, let's be honest

Is this the end?
I don't think we can be friends
I'm just being honest
'Cause I don't want to make things better
Thanks for nothing, lasts forever

And even when we were together
Well, let's be honest
