

trouble

Nilüfer Yanya

When we wake
Try and change my mind
(There's a way to be lonely)

Acid bites
Gonna cut these lines
(It's the way that you'd hold me)

If there's a little time I'll wait
And if there's a reason why I'll stay
But there's a little time
I bet this hurts
No, but it's good for me
And is it difficult?
What is it temporary?

Seems impossible
Place you're looking for
Tell me what it's like
Tell me what I'll find
Days too far apart
Chained you to my heart
Strangers side by side
Strangers all our lives
Shame it's

Troubled don't count the ways I'm broken
Your troubles won't count, not once we've spoken
What troubles me now If I tear right open
Some people won't have the faintest notion

Troubled don't count the ways I'm broken
Your troubles won't count, not once we've spoken
What troubles me now If I tear right open
Some people won't have the faintest notion

Nothing's lost
On the new design
(There's a way to be lonely)

Out of spite
Its gonna still remind
(It's the way that you'd hold me)

If there's a little time I'll wait
And if there's a reason why I'll stay
But there's a little time
I bet this hurts
No, but it's good for me
And is it difficult?
What is it temporary?

Seems impossible
Place you're looking for
Tell me what it's like
Tell me what I'll find
Days too far apart

Chained you to my heart
Strangers side by side
Strangers all our lives
Shame it's

Troubled don't count the ways I'm broken
