

# Shine Silently

Nils Lofgren

Just another room, just another town  
Same old crazy people, hangin' around  
Still you shine silently  
Strarin' down in space, comin' down alone  
Feel like packin' all my bags, headin' home  
Still you shine silently

Shine silently  
I don't need no light, in the darkness  
Shine silently  
No I won't get lost while your love shines on me  
Shines on me

People at the door, people on the phone  
Same old story no time of my own  
Still you shine, silently  
Nothin' left to say, nothin' left to prove  
When it's said and done there's nothin' left but you, babe  
Shine silently

Shine silently  
I don't need no light, in the darkness  
Shine silently  
No I won't get lost while your love shines on me  
Shines on me

Shine silently  
I don't need no light, in the darkness  
Shine silently  
No I won't get lost while your love shines on me  
Shines on me
