

# Levitating

Nina Chuba

Lay me down and play it slow  
When we fall, don't let me go  
I can't take it, vertigo  
In the darkness, something grows  
Drop don't hurt me, this I know  
Just the landing, brittle bones

Got a hundred million reasons  
Yeah, I know that it's irrational  
Floatin' down the river  
Pretty soon, yeah, I'll be past the point  
No way out, your gravity is unavoidable  
Can you break my fall?

Crash into the skyline, break through the night  
Watchin' the ground rise up, act like it's fine  
Like we're levitating  
Like we're levitating  
Hands up on my neckline, tracing a lie  
Falling through the cloudline, chasing a high  
Like we're levitating  
Like we're levitating

When I'm lonely, baby, I just call you up  
Say I don't want nothing, but I need your touch  
Maybe I should stop this, 'cause it tears me up  
It tears me up

Got a hundred million reasons  
Yeah, I know that it's irrational  
Floatin' down the river  
Pretty soon, yeah, I'll be past the point  
No way out, your gravity is unavoidable  
Can you break my fall?

Crash into the skyline, break through the night  
Watchin' the ground rise up, act like it's fine  
Like we're levitating  
Like we're levitating  
Hands up on my neckline, tracing a lie  
Falling through the cloudline, chasing a high  
Like we're levitating  
Like we're levitating

Lay me down and play it slow  
When we fall, don't let me go  
I can't take it, vertigo
