

Dope Sucks

Nina Hagen

Dope sucks! (8x)

Don't want to put on a narcotic revolution
Don't want to push it on a dead end street
I hate to see you running round in circles
Don't want to catch you with a piece of concrete

We're working down and nasty
Down to what you honestly feel
You better do it from the heart
And don't you do it from the head
You better do it from the heart

I hate to see you fade away in a Heartbreak Hotel room
I don't like to see you running hot like a disease in the doom
We search for an honest answer
See what you honestly feel
You better do it from the heart
And don't you do it from the head
You better do it from the heart

Dope Sucks! (3x)
Just say no

I don't want to be your friendly
'Cuz your words are sweet as honey
I don't want your so-called smile
'Cuz your mind is on my money
I don't want you to stare and shoot
Who's got the prettiest shoes?
I just want to crank you up some more
Just want to turn you loose

Don't want to put on a narcotic revolution
Don't want to push it on a dead end street
I hate to see you running round in circles
Don't want to catch you with a piece of concrete

We're working down and nasty
Get down to what you honestly feel
You better do it from the heart
And don't you do it from the head
You better do it from the heart

Dope Sucks! (7x)
Just say no
