

Never Over

Nina Hynes

When the day is over
Our time is through
I'll stay which is the season
Through the wind
I'll be with you
In the flame of the fire
In the gray of the sky
In the voice of a singer
You'll feel it we'll never die
Our love is never over
It's never over
It's never over
When the last word is spoken
When your lungs can't breathe

When your heart is truly broken
The winter leave, just bleeds
It's in the flame of the fire
In the gold of the sun
In the voice of a singer
You'll feel it we will be one
Our love is never over
It's never over
It's never over
Our love is never over
It's never over
It's never over
