

## Now

Nina Hynes

He said I only can rely myself  
And he wrapped it up and put me on his shelf  
It's so easy to walk away  
What's a friend then if you don't stay  
Around when I'm down when I'm on the ground  
Where are you to be found  
And I'm trying hard not to be cynical  
In a world we are few seem to keep their word  
But who am I to say, was I there, did I stay  
Around when you were down when you were on the ground  
Was I there to be found  
And I believe in love  
And I believe we can change the world  
To see how future could be ours  
Future could be hours  
And I believe in now  
He said "I love you forever sweetie pie"  
He said "My love, you know our souls are linked for life"

It's so easy to say  
What does it all mean if you don't stay  
Around when I'm down when I'm on the ground  
Are you there to be found  
She's passing by  
No more stay here  
Forget me now while I disappear  
Did I give, did I take  
Was I there, did I stay  
Around when you were down when you were on the ground  
Was I there to be found  
And I believe in love  
And I believe we can change the world  
To see how future could be ours  
Future could be hours  
And I believe in now  
And I believe in love  
And I believe we can change the world  
To see how future could be ours  
Future could be ours  
And I believe in now
