Nina Nesbitt

Meet me on the stairway  
Kiss me like I'll be gone  
Like a summer song  
Thinking about you on the subway  
Into Stockholm  
And there's so much going on in my head

Yeah, my father just left  
And my mother's depressed  
All the trees are up in flames  
From San Francisco to L.A.

If I had it my way  
I'd be there in your car  
As I watch you drive

You're the kinda flame  
I don't wanna burn out  
I would give you my heart  
Let you tear it apart, Älskar

Is it all that you want, is it?  
'Cause you know, for your love, I would die for it  
I would give you my heart  
Let you tear it apart, Älskar

I wanna scream your name  
Into an empty canyon  
So I can hear it back a thousand times, yeah  
We got nothing in common  
But we fit better than pills in a packet  
I wanna be your late-night habit  
If you let me

You're the kinda flame  
I don't wanna burn out  
I would give you my heart  
Let you tear it apart, Älskar

Is it all that you want, is it?  
'Cause you know, for your love, I would die for it  
I would give you my heart  
Let you tear it apart, Älskar

Is it all that you want, is it?  
For your love, I would die for it  
Is it all that you want, is it?  
For your love, I would die for it

Is it all that you want, is it?  
For your love, I would die for it  
Is it all that you want, is it?  
For your love, I would die for it

For your love, I would die for it  
Mmm  
I would give you my heart

Let you tear it apart, Älskar
