

# Hard Times

Nina Nesbitt

Kick off your shoes, make a bed on the floor  
Won't you shut out the world and kiss me some more?

When does it end?  
My love, we've been up against it  
Hiding in the trenches  
When will we see the sun?  
'Cause God, I miss it

Dry my eyes  
And tell me you're gonna love me for a long time  
It'll be alright  
We're just going through some hard times

Turn down the lights and colour me in  
Won't you love so me good I forget where I've been?

'Cause it's been a weight on us  
We've been up against it  
Losing our defences  
But baby, we're way too young  
To try and fix this

Dry my eyes  
And tell me you're gonna love me for a long time  
It'll be alright  
We're just going through some hard times  
Won't you lay, lay me down  
And push our troubles off to one side?  
It'll be alright  
We're just going through some hard times

We're just going through some hard times
