

Make It Easy

Nina Nesbitt

Don't make me sit down
Just get your words out
You're trying to be kind but it's just cruel
Don't say you'll always
Love me in some way
If you know that it's not true

Ooh, I'm sure this is rough for you too
But if I can't change your mind then

Don't say that we'll be friends
Don't come 'round here again
Don't call my mother asking how the hell I've been
If you're gonna break my heart just tear it apart
If you wanna make it easy make it hard

I shouldn't stay here one second longer
I'll get my friends to get my clothes
Can't stand the thought of someone here where I was
But this ain't working we both know

Ooh, yeah, baby, this is rough on me too
But we need more than time

Don't say that we'll be friends
Don't come 'round here again
Don't call my mother asking how the hell I've been
If you're gonna break my heart just tear it apart
If you wanna make it easy make it hard

And I can't hear your voice if it's not saying that you love me
'Cause getting over you will never end
And standing beside you when I can't hold your hand
Will be like breaking up over and over again

Don't say that we'll be friends
Don't come 'round here again
Don't call my mother asking how the hell I've been
If you're gonna break my heart just tear it apart
If you wanna make it easy make it hard
If you wanna make it easy make it hard
