

# Teenage Chemistry

Nina Nesbitt

Kissing in the streetlights  
I was the one you want  
We'd be drinking by the TV  
In the front room, all night long  
Over at your friends house  
Yeah they're putting things on their tongues  
We're talking 'bout our dreams  
And you're dancing crazy  
Making me

Adore you  
Wanna know you  
I remember  
The way that we were flying free that summer  
We were younger  
There was no other  
That set my heart on fire

Say we'll be forever  
True love, yeah whatever  
Like we're still eighteen  
Teenage chemistry  
Late nights in your sweater  
Touch lips, yeah whenever  
Like we're still eighteen  
Teenage chemistry

Reckless heavenly  
Teenage chemistry  
Hands all over me, yeah  
Teenage chemistry

You're running all the red lights  
Just to get me back home  
Yeah you put on some heavy punk music  
As I let you take off my clothes  
I kiss you as my lips shake  
'Cause I never wanted something more  
I still want you like that  
When you're driving me crazy  
Making me

Adore you  
Wanna know you  
I remember  
When we were flying free, flying free

Say we'll be forever  
True love, yeah whatever  
Like we're still eighteen  
Teenage chemistry  
Late nights in your sweater  
Touch lips, yeah whenever  
Like we're still eighteen  
Teenage chemistry

Reckless heavenly (I can't breathe)

Teenage chemistry (You're all I need)  
Hands all over me, yeah (I can't eat)  
Teenage chemistry (No I don't sleep)

Reckless heavenly (I can't breathe)  
Teenage chemistry (You're all I need)  
Hands all over me, yeah (I can't eat)  
Teenage chemistry (I don't sleep)

Reckless heavenly (I can't breathe)  
Teenage chemistry (You're all I need)  
Hands all over me, yeah (I can't eat)  
Teenage chemistry
