

# Jungle

Nina Persson

Everybody's trying to come and find me now  
Everybody's trying to track me down somehow  
Everybody's trying to tell me something  
My, oh my!

It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle

Does anybody want to come and talk me down?  
Will anyone that loves me come and help me out?  
Can anybody tell me what it's all about?

Cause it's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle

To the ground  
To the ground  
They cut it down  
Cut it down  
Cut it down  
To the ground

Pillagers who shook me down from my canopy  
Nature's gonna come and take you out, you'll see  
Nothing left to keep us dry  
I wonder why, oh why?

It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle  
It's getting kind of hard to hide in the jungle
