

Never Look Back

Nina Sky

I can take you on rides you've never
Been before baby I am better
We're light as a feather you and I together
So let's fly and never look back

Never Look back,
Never Look back,
well never look back,
never look back.
Never Look back,
Never Look back,
well never look back,
never look back.

I know you might be skeptical
Because of girls you've met before
But I'll be the guide through your favorite times
So let's fly and never look back

Never Look back,
Never Look back,
well never look back,
never look back.
Never Look back,
Never Look back,
well never look back,
never look back.

Shhhhh, Be Quiet, Listen...
We're almost there,
We're almost there.
