

# Automatic Call

Nina

Always wondering  
Where I'm going  
Where is best to go  
And you were my only hero  
All these years and more

But I don't wanna make a fool of you  
And you don't wanna make a fool of me  
So baby, why don't we  
Just leave it where it should be  
And we're through

We almost had it all  
But the beating of my heart  
Will always soldier on

An automatic call  
And now I fall apart  
I'll always carry on

It was on a  
Cold December  
You and me were done  
Saw you leaving through my window  
Slamming the front door

But I don't wanna make a fool of you  
And You don't wanna make a fool of me  
So baby why don't we  
Just leave it where it should be  
And we're through

We almost had it all  
But the beating of my heart  
Will always soldier on

An automatic call  
And now I fall apart  
I'll always carry on

And now you wanna meet up  
You know how much it will hurt  
It seems I'm never enough  
You're never gonna disrupt  
The rhythm of my heart

We almost had it all  
But the beating of my heart  
Will always soldier on

An automatic call  
But now I fall apart  
I'll always carry on  
Even if you're not here
