

Purple Sun

Nina

Fifty states all in my mind, pure gravity
Calling me with crashing sounds towards the sea
Forgotten roads, and gasoline
On the last hour, we leave

So, if you love me lead the way
You're gonna drive me further away from here
I know this is the only chance we got
We don't need reasons only us tonight

I know you've made up your mind
We can't go back
Letting go for the first time
You feel alive

So, if you love me lead the way
You're gonna drive me further away from here
I know this is the only chance we got
We don't need reasons only us tonight

And I can feel tomorrow won't be the same
Even when seasons change, we'll always be insane
Let's jump right into fate, let's take a chance

We can go anywhere

Just trust the sky above us baby
Let's swim against the tide tonight
As life keeps getting harder baby
We'll drive towards the purple sun
Come on, come on, come on, come on
Let's swim against the stream
Towards the Purple Sun
